About Rad Rodgers: World One:

Rad is a rambunctious but spirited young boy who maybe plays too many video games. After dozing off at the tail end of a long night of gaming, Rad awakens to find his dusty old console has turned itself back on. Suddenly a vortex emerges and he's sucked into his TV, where he finds himself the star in his very own video game adventure.

Dusty is Rad's good-hearted but foul-mouthed, now-sentient game console. His clock speed isn't what it used to be, but what he lacks for in megahertz he makes up for with experience and attitude!

Rad & Dusty's adventure begins in World One, taking them through seven dangerous stages of action-packed, humor-filled, hardcore platforming fun. This decaying jungle world has been infected by a fierce corruption, and it's up to the unlikely buddy-duo Rad and Dusty to save the jungle's inhabitants and restore the Elder Tree as guardian of the land.

About EVGA

EVGA is the #1 NVIDIA authorised partner in channel sales throughout North America and UK. Based on the philosophy of intelligent innovation, market knowledge, and the real time operation, EVGA continues to identify the need in the market place and providing the solution to that need. By offering product differentiation, a 90 day Step-Up programme, and other customer focused programmes, EVGA is a clear leader in all categories: etail, retail, distribution, and system integration. With headquarters in Brea, CA, EVGA's global coverage includes EVGA GmbH in Munich, EVGA LATAM in Miami, and EVGA Hong Kong. For further information online about EVGA, visit: <http://eu.evga.com>.
