

EVGA TORQ X5 and X3 Gaming Mice – Now Available in Europe

- **Thursday, February 19, 2015** – EVGA TORQ X5 and X3 gaming mice are now available in Europe. Each of these mice was designed from the ground up to satisfy the needs of the hardcore gamer with high quality sensors and Omron switches. The EVGA TORQ X5/X3 mice support fully programmable buttons, onboard storage for saving up to 5 profiles, and more.

TORQ Mice Features:

- RGB LED can be customised from software (TORQ X5/X5L/X3L)
- Onboard storage can support up to 5 separate profiles
- Ambidextrous design supports right- or left-handed gamers
- Adjustable DPI with On-The Fly sensitivity adjustment
- Highest quality materials and Omron switches
- Robust software allows full control over mouse including Macro setup, profiles and OSD
- Super low friction PTFE mouse feet

EVGA Unleash Software

The EVGA TORQ gaming mouse comes complete with a full software package that allows complete control over the mouse. Customise the colour, button settings, DPI and profiles. The EVGA Unleash software also has an OSD (On Screen Display) that makes it easy to see what profile or DPI setting you are using!

EVGA Unleash Features:

- Allows full control of the EVGA TORQ mouse
- Easy to switch between right- and left-handed mode
- Ability to reassign any of the buttons
- Designed with usability in mind
- Heads-up display shows key settings at a glance
- Flexible macro and profiling system
- Angle Snapping support (Default Off)
- Adjustable LED colour and brightness
- Available for Windows 8, 7, Vista
