

**EVGA GeForce RTX 2070 – Now Available for Order**

- **Wednesday, October 17, 2018** – The EVGA GeForce RTX 2070 Graphics Cards are powered by the all-new NVIDIA Turing architecture to give you incredible new levels of gaming realism, speed, power efficiency, and immersion. With the EVGA GeForce RTX 2070 gaming cards you get the best gaming experience with next generation graphics performance, ice cold cooling, and advanced overclocking features with the all new EVGA Precision X1 software.

The new NVIDIA GeForce RTX GPUs have reinvented graphics and set a new bar for performance. Powered by the new NVIDIA Turing GPU architecture and the revolutionary NVIDIA RTX platform, the new graphics cards bring together real-time ray tracing, artificial intelligence, and programmable shading. This is not only a whole new way to experience games - this is the ultimate PC gaming experience.

Completely Redesigned From the Ground Up:

- First Ever Hydro Dynamic Bearing (HDB) VGA Fans Offer Lower Noise and Longer Lifespan
- New Shield and Trim to Customize Your Card
- New Fan Blades, Rotation Direction and Hub Designed for Quiet and Efficient Operation
- EVGA Precision X1 Software Gives You New Way to Overclock

The World's First Ray-Tracing Gaming Graphics Card

When it comes to next-gen gaming, it's all about realism. EVGA GeForce RTX 20-Series Graphics Cards are light years ahead of other cards, delivering truly unique real-time ray-tracing technologies for cutting-edge, hyper-realistic graphics.

Next Generation Overclocking

With a brand new layout, completely new codebase, new features and more, the new EVGA Precision X1 software is faster, easier and better than ever. When paired with an NVIDIA Turing graphics card, the new EVGA Precision X1 will unleash the full potential with a built in overclock scanner, adjustable frequency curve and RGB LED control.
