

## Spring forward with a free EVGA Backplate!

- **Thursday, April 23, 2015** – Spring into action and grab yourself a FREE backplate for the EVGA GeForce GTX 970 SSC ACX 2.0+ (04G-P4-3975-KR) and EVGA GeForce GTX 970 SC ACX 2.0 (04G-P4-2974-KR) graphics cards at participating retailers for a limited time!

A backplate acts like a backbone on your card, boosting rigidity by providing extra support to the PCB, protecting critical components, reducing GPU temperatures, and most of all, it looks great!

When purchased from participating retailers, the backplate will automatically be included with the purchase – the end user has only to do a simple installation. (Instructions are included with the backplate). Offer ends 30 April 2015, or for as long as supplies last.
