

EVGA TORQ X10 Gaming Mouse now available in Europe; Worldwide rollout underway

- **Wednesday, August 27, 2014** – The EVGA TORQ X10 Gaming Mouse is now available in Europe. Built with the highest quality materials including a real Carbon Fibre surface, this mouse was designed from the ground up to satisfy the needs of the hardcore gamer with a high quality laser sensor that provides up to 8200 DPI, an adjustable weight system, nine programmable buttons, and a unique sizing system that allows you to adjust the height of the body.

We didn't stop there though. The EVGA TORQ X10 features the highest quality Omron switches with a lifespan of more than 20 million clicks. We also included a full metal base that provides solid construction, the latest Avago 9800 laser sensor providing up to 8200DPI with 1000Hz polling rate, a 6FT silver coated USB cable, and much more.

The EVGA TORQ X10 Gaming Mouse is now available in Europe at the following MSRPs (inc. VAT):

EVGA TORQ X10 Carbon: 89,90 Euros / £69.99 / 879 SEK

EVGA TORQ X10: 69,90 Euros / £49.99 / 599 SEK

Both Carbon and non-Carbon versions are currently available from the following retailers:
