

Introducing the EVGA SuperNOVA G2L Power Supply Series

- **Monday, September 19, 2016** – The unbeatable performance of the EVGA SuperNOVA G2 power supply line is now available with LED lighting in the new G2L versions. These units feature 80 Plus Gold rate efficiency, and clean continuous power to every component. The ECO Control Fan system offers fan modes to provide absolutely zero fan noise during low to medium load operations. Backed by an award winning 10 Year Warranty, and 100% Japanese capacitor design, the EVGA SuperNOVA 850/750 G2L power supplies offer unbeatable performance at an unbeatable value.

Features:

- Built in LED Illumination – Killer performance, killer looks with built in White LED Illumination
- 100% Modular Design – Full modularity enables you to use only the cables you need, helping to improve case airflow, eliminate unnecessary wires, and best of all, reduce cable clutter.
- Whisper Silent – The EVGA ECO mode feature ensures that the power supply stay completely silent during low to medium loads. The fan does not spin until necessary, allowing for completely silent operation!
- Unbeatable Performance – 90% efficiencies or higher under typical loads and highest quality Japanese brand capacitors ensure long-term reliability.
